ABOUT

- Full-stack developer experienced in building web applications using **Spring Boot** and **React.js**. Skilled in developing RESTful APIs, implementing JWT-based authentication, and working with **MySQL** databases. Passionate about creating clean, responsive, and scalable applications that deliver great user experiences.
- Skilled MERN Stack and Full Stack Java Developer seeking to apply my expertise in building scalable and efficient web applications to contribute to the success of a dynamic organization

EDUCATION

D Y Patil University Pune

B.Tech - (Information Technology) - CGPA - 9.23

August 2023 - August 2027

PROJECT

Background Remover - AI

Developed a full-stack Background Remover web application using React and Tailwind CSS for a responsive UI, integrated user authentication via Clerk, and built secure REST APIs with Spring Boot and Spring Security. Backend services were tested using Postman to ensure robust performance and API reliability.

Employee Management System

Built a full-stack Employee Management System using React for the frontend and Spring Boot for the backend. Implemented CRUD operations with MySQL for persistent data storage. Utilized Postman for API testing and validation, ensuring seamless interaction between frontend and backend services.

E-Commerce Catalog

E-Commerce Catalog built with **Spring Boot, React, and MySQL** for managing products, categories, and users. It features a RESTful API, authentication, and a responsive UI with CRUD operations.

Password Manager

Developed a secure and user-friendly password management application using MERN Stack (MongoDB, Express.js, React.js, Node.js) and Java for backend API integrations. The application allows users to store, generate, and manage their passwords securely

SKILLS

Programming Language - Java, c, JavaScript.

Frontend Technologies - HTML5, CSS3, React.js, Bootstrap, Material-UI, JSP (Java Server Pages).

Backend Technologies - Spring Framework (Spring Boot, Spring MVC, Spring Security), Hibernate (ORM) Servlets and JSP, RESTful APIs, Microservices Architecture.

Database - MySQL, PostgreSQL, MongoDB, JDBC (Java Database Connectivity).

Version Control - Git, GitHub.

Authentication and Security - JWT (JSON Web Tokens).

Build and Deployment Tools - Maven.

LANGUAGE

Hindi, English and German - A1(level)
